

## **Fit3D Scan**

### **Patient Preparation Instructions**

#### **For Fit3D Scan:**

- No special attire is needed. All clothing, with the exception of undergarments will need to be removed for the scan. Form-fitting swimwear is acceptable as well.
- For long hair, it will need to be pulled back and off the neck.
- Remove all jewelry before the scan.
- Head scarf will need to be removed.
- Patient will need to be able to stand up-right with head straight for the scan.  
This will take less than 5 minutes.
- A staff member will be in the room with the patient during the scanning process.
