1

Patient Instructions for HygiPrep® will be provided to you when scheduling your prep. A few days prior to your scheduled visit, you will receive a call to review the instructions.

2

Our trained technician will lead you to your private room, where you will be seated on the sanitized basin. A sterile disposable nozzle will be introduced into the rectum. A gentle stream of warm water will flow into the bowel, loosening stool.

3

Water continues to flow allowing you to comfortably and discreetly evacuate your colon. The trained technician will instruct you on completion of the procedure, which routinely takes less than 2 hours.
