1

Once your appointment has been scheduled, arrive at the Hygieacare® Center. Please register at the front desk and our trained technician will greet you and lead you through the treatment.

2

Upon your arrival, you will be taken into a private room where you will partially disrobe, sit comfortably on the basin, and cover yourself with a blanket. The trained technician will get back into the room and gently insert a lubricated, small size, disposable nozzle into the rectum.

3

A gentle stream of temperature controlled, gravity-flow water will loosen stool and induce bowel movements, allowing you to comfortably evacuate your colon discreetly and odorlessly providing relief of constipation and bloating.

What is Constipation & Bloating?

Constipation is generally described as having fewer than three bowel movements a week.

Bloating is swelling or increase in diameter of the abdominal area, feeling a full and tight abdomen, which may cause abdominal pain.

So what do you do when you just can't go?
The effective solution- GO with Hygieacare Constipation & Bloating Relief.
